Notes
<ol style="list-style-type: none"> I have attempted to schedule people for the amount of time they have indicated that they are willing to help. However, we are still limited with the amount of people that are willing and have been trained. If you are not able to make it for a particular Sunday, it is your responsibility to find someone to switch with you or take your place. Please make the necessary arrangements as soon as you know that you will not be able to meet the schedule. Please review the information regarding the responsibilities of the Tech Team Members.
